OBJECTIVE

Aspiring Backend Software Engineer Intern skilled in Java and Spring Boot, with experience building RESTful APIs and secure, scalable applications, eager to contribute to real world backend systems and grow through practical experience.

PROJECTS

Banking System Secure Multi User OOP Application

Oct 2024 - Nov 2024

Developed a Java Swing desktop banking system with Client and Admin dashboards. Implemented features such as user registration, login authentication, balance check, deposit, withdrawal, and loan requests, while admins manage accounts and approve/reject loans. Applied OOP principles, file-based data persistence, and input validation.

Platform: Desktop application

Used Technology: Java, Java Swing, OOP, File Handling

GitHub Link: <https://github.com/selimAhmed10/Banking-System-Secure-Multi-User-OOP-Application>

Micro finance Management system

May 2025 - Aug 2025

Developed a web-based microfinance management system with role-based dashboards for Borrowers, Field Officers, and Backend Officers. The system enables secure borrower registration, loan applications, approvals, repayment tracking, digital payments, collection monitoring, and automated financial reporting. Built REST APIs with Spring Boot for secure data management, applying strong OOP principles, full-stack development, and user-friendly interface design.

Platform: Web application

Used Technology: Java, Spring Boot, HTML, CSS, PhpMyAdmin, REST APIs

GitHub Link: <https://github.com/selimAhmed10/Micro-finance-Management-system>

Student Management System

Mar 2026 – April 2026

Developed a web-based Student Management System with role-based dashboards for Administrators, Teachers, and Students. The system enables secure student registration, course enrollment, assignment submissions, grade management, fee payments, and automated academic reporting. Built REST APIs with Spring Boot for secure data management, applying strong OOP principles and full-stack development.

Platform: Web application

Used Technology: Java, Spring Boot, HTML, CSS, MySQL, OOP, REST APIs, Spring Data JPA, Spring security

GitHub Link: <https://github.com/selimAhmed10/FullystudentManagement>

TECHNICAL SKILLS

Programming Languages

C/C++, Java, Python

Frameworks & Libraries

Spring Boot, Java Swing, NumPy, Pandas, Scikit-learn, Matplotlib

Web Development

HTML, CSS, Javascript, PHP, MySQL, phpMyAdmin

Tools & Platforms:

GitHub, IntelliJ IDEA, Visual Studio Code, Jupyter Notebook, ProjectLibre, ArgoUML

Artificial Intelligence & Machine Learning:

Supervised Learning, Unsupervised Learning, Neural Networks, Deep Learning, Transfer Learning, Natural Language Processing (NLP), Orthogonal Tensor Ring(OTR), Data Analysis, Big data, Data Preprocessing, Feature Engineering, Model Development etc.

CERTIFICATION

- Core: Transfer Learning for NLP, Deep Learning with PyTorch, Java, Fine Tune BERT for Text Classification with TensorFlow, Tweet Emotion Recognition with TensorFlow
- Social and Community : Blood Donation, Red Crescent Youth, Social Welfare Projects
- Co-curricular Certificates: Debating, Science Olympiad, Sports

EDUCATION

Bachelor of Computer Science and Engineering

University Of Liberal Arts Bangladesh
CGPA: 3.75/4.00 (Up to 10th Semester)

Oct 2022-Present

Higher Secondary Certificate (HSC)

Govt. Shah Sultan College, Bogura
GPA: 5.00/5.00

2020

Secondary School Certificate (SSC)

Gabtal Pilot High School
GPA: 5.00/5.00

2018
